EDUCATION

Master of Science, Business Analytics & Artificial Intelligence
Stevens Institute of Technology | Hoboken, NJ | Expected Graduation: December 2027

Bachelor of Science, Computer Science
Rutgers University | New Brunswick, NJ | May 2024

COURSEWORK

Data Structures, Computer Architecture, Deep Learning, Intro to Artificial Intelligence, Data Science, Software Methodology, Principles of Programming Languages, Big Data Technologies, Management of AI Technologies

PROFESSIONAL EXPERIENCE

Web Content Developer and Webmaster
NYU Arthur L. Carter Journalism Institute | New York City, NY | July 2026 - Present

- Manage and maintain production WordPress websites, creating, updating, and publishing web content with the Gutenberg Block Editor while ensuring accuracy and consistency.
- Troubleshoot and resolve publishing workflow, user permission, and content management issues for site users and editors.
- Collaborate with faculty and staff to implement website updates, test changes, and resolve technical requests in a production environment.

Team Member
Gatcha | Edison, NJ | October 2024 - May 2026

- Developed internal tools to automate inventory tracking and financial reporting, improving operational efficiency and data accuracy.
- Diagnosed, repaired, and performed preventative maintenance on arcade and claw machines, reducing downtime and improving operational reliability.
- Processed high-volume customer transactions while resolving technical and operational issues in a fast-paced environment.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks / Libraries: React, Node.js, Express, PyTorch, PySpark
CMS / Web Technologies: WordPress, Gutenberg Block Editor, REST APIs
Databases & Tools: PostgreSQL, MongoDB, Git, GitHub, Ollama, Android Studio
Other: WordPress Administration, Content Management Systems (CMS), Website and System Testing, Debugging, Software Development Life Cycle (SDLC), Technical Documentation, Agile/Scrum

PROJECTS

Full-Stack AI Chatbot | Python, Ollama, PostgreSQL, Express, React, Node.js

- Developed a locally hosted AI chatbot using Ollama large language models (LLMs), with a PostgreSQL conversation database, Express REST API layer, and React frontend.

Per-Character Dialogue Extractor | Python

- Built a Python tool that parses script files using regular expressions to automatically extract character-specific dialogue and export results to TXT and CSV formats.

Lifestyle Planner App | Java, Android Studio

- Developed an Android application that generates daily schedules using weather API data and persists user information through JSON serialization.
